

## Amaliy mashg'ulot: № 5\_Multik qahramon, Quyuncha rasmini chizish.

Corel Draw X7 grafik dasturida Quyuncha rasmini chizamiz. Buning uchun

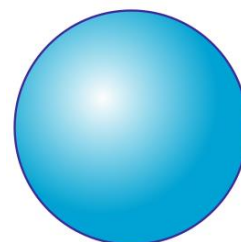

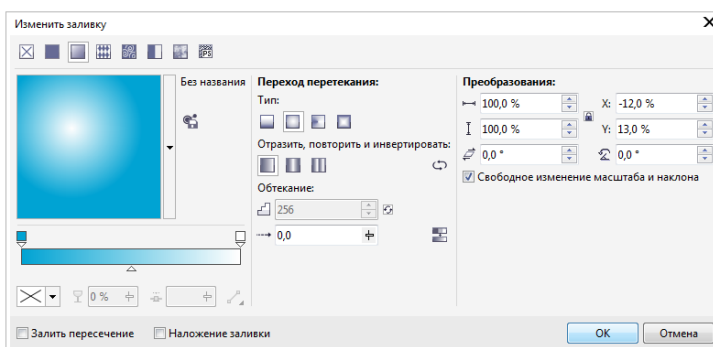

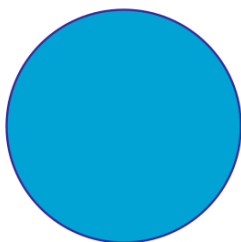

Corel Draw X7 grafik dasturining uskunalar panelidan *ellipse* buyrug'ini tanlaymiz va ishchi maydonda *Ctrl* tugmasini bosgan holda doira chizamiz. Doiraning ichiki sohasini ranglar palitrasidan ranglaymiz va doiraning chetki chizig'ini qalinlashtiramiz buning uchun uskunalar panelidan chiziq qalinligini 2mm qilib belgilab

olarniz so'ngra chiziq rangini

ham tanlaymiz. Doiraning rangini o'zgina yorug'lashtiramiz buning uchun uskunalar panelidan **Изменить заливку** buyrug'ini tanlaymiz va istalgan ko'rinishni tanlab **OK** tugmasini bosishimiz mumkin.

Quyunchaning oyoqlarini yasashimiz uchun uskunalar panelidan **ЭЛЛИПС** buyrug'ini tanlaymiz va ishchi maydonga ikkita oval shakil chizamiz. Hosil bo'lgan shaklning rangi va chetki chiziq rangini moslab ranglab olarniz so'ngra obektni belgilab uskunalar panelidan **Преобразовать в кривые** buyrug'ini tanlaymiz yoki klaviaturadan *ctrl+Q* tugmalarini bosamiz. Obektni ixtiyoriy shaklga keltirishimiz mumkin shu tariqa qo'li, oyog'I va quloqchalarini yasab olishimiz mumkin.
